State Capitol  
Juneau, Alaska 99801

## Statement from Coastal House Legislators and Legislators-Elect

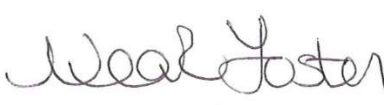

Many conversations have taken place since the November 2018 elections in the effort to put together an effective working House coalition to serve the people of Alaska.

It is our goal to be part of a strong, hard-working majority whose highest priorities are the prosperity, safety, health, and well-being of the people of Alaska. We value practical policies and truly working together, an approach that prioritizes people's needs over party.

As efforts to form a majority coalition in the House continue, we want fellow House members to know that we are, and will remain, united in our determination to join a coalition that is dedicated to passing a responsible budget, keeping Alaskans safe, and protecting the Permanent Fund and the Permanent Fund Dividend. We will only participate in a coalition that is committed to these goals.

Given that the upcoming session is fast approaching, it is time for the House to get organized and prepare for the work of the 31st Legislature.
